

# Become a Virtual Connection Facilitator

## What is Virtual Connections?

Virtual Connections is a free video-conferencing program offered by Lingraphica and Aphasia Recovery Connection for people with aphasia. Sessions are offered seven days per week, each focusing on improving quality of life, conversation, and social connection. Virtual Connections is not speech therapy.

CONNECTIONS

Aphasia Recovery Connection  
& Lingraphica

## What are the benefits of becoming a Virtual Connections facilitator?

Virtual Connections sessions provide a place of social connection for people with aphasia. Aphasia can be very isolating, and many people with aphasia do not live near an aphasia center or an aphasia support group. These sessions provide a place for people with aphasia to connect and practice their conversation skills in a safe, welcoming environment. You can be part of this heartwarming experience!

## What does a Virtual Connections facilitator do?

Virtual Connections facilitators host the sessions via Zoom. Facilitating VC sessions is very flexible — dates, times, session topics, and structure are all up to you!

## How often do facilitators volunteer?

Host as often as you are able! Facilitators can host sessions on a weekly, bi-weekly, or monthly basis. We appreciate any sessions you can provide.
