and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

This course is offered for 0.1 ASHA CEUs (Introductory level; Professional area).

Complete a 0.1 ASHA CEU Course

Speech-language pathologists (SLPs) are invited to participate in a one-hour ASHA-approved course offering, "Using Lingraphica AAC Devices, Apps, and Therapy: An Introductory Webinar." To be eligible to receive 0.1 ASHA CEUs (Introductory level), please see the guidelines below.

For more information about ASHA's most up-to-date eligibility criteria, go to the FAQ section of the ASHA CE website: <http://www.asha.org/CE/FAQs/>.

Course Description:

This course provided the scientific background of Lingraphica Speech Generating Devices, the clinical methodologies behind the design of our therapy platform, and a demonstration on identifying the appropriate tools for functional communication and therapy for clients.

Learning Outcomes:

By completing this course, participants will be able to:

1. Identify the scientific background of Lingraphica Speech-Generating Devices, online therapy, and apps.
2. Identify unique, research-based design elements of icons and icon behaviors to meet the needs of the neurologically impaired.
3. Perform the basic operations as well as advanced techniques of a Lingraphica Speech Generating Device that are used in working clinically with persons with aphasia and other communication disorders.
4. Demonstrate how communication and support materials supplied with a Lingraphica Speech Generating Device are used to help formulate intervention plans, implementation strategies, and associated rehabilitation goals.
5. Use Lingraphica apps functionally for communication, therapy and assessment.
6. Describe the process by which speech-language pathologists can arrange no-risk home trials of a Lingraphica Speech Generating Device for adults with aphasia and other communication disorders who are candidates for acquisition of a device are potentially.
7. Use therapy platform to create a tailored plan of care based upon clients' individual needs and monitor their progress.

Additional courses in the Applications of Technology track include:

- Using the Lingraphica Speech Generating Device: An Introductory Web Demo (Introductory, 0.05 ASHA CEUs)
- Lingraphica Technologies for Your Plan of Care (Introductory, 0.05 ASHA CEUs)
- Ethical Considerations for Bilingual AAC Patients with Aphasia (Introductory, 0.1 ASHA CEUs)
- Leveraging the 10 Principles of Neuroplasticity in AAC Device Training (Introductory, 0.05 ASHA CEUs)

Processing:

Online course completions are reported to ASHA quarterly. Please allow eight to ten weeks for processing. Lingraphica will issue a certificate of participation to each SLP who completes a CEU course.
