

MiniTalk™

POCKET-SIZED TECHNOLOGY:
Maximum
Portability,
Minimum Size

The Lingraphica MiniTalk™ is our most portable communication device designed for individuals with communication disorders. The MiniTalk weighs less than one pound and conveniently fits in a coat pocket or purse.

The MiniTalk's icon-based language system includes more than 4,400 adult-appropriate graphic icons and animations that represent 9,000-plus words, empowering you to find your voice by quickly building phrases to help reconnect with your family, friends, and community.

The MiniTalk is ultra-portable, extremely lightweight, and comes with a protective carrying case — so you can easily communicate while on the go.

To see if the MiniTalk is right for you, try one today for free by calling 888-274-2742.

THE MINITALK IS THE PERFECT CHOICE IF YOU:

- **Enjoy the convenience** of an ultra-portable communication device
- **Want a pocket-sized device** suitable for communicating in any setting
- **Need a discreet**, lightweight device with a protective case
- **Prefer the option** of a touchscreen keyboard
- **Require a flexible and highly customizable device** to match your unique language needs

MiniTalk™

Find Your Voice

- Communicate your needs, health, activities, and more with a vocabulary of adult-focused icons
- Communicate in real-time by typing what you want the device to speak
- Select from a variety of voices to match your personality

Communicate Your Way

- Go where you need to go with an ultra-portable and discreet mini-tablet design
- Use the device away from home for hours with our longest-lasting battery
- Interact with the device using a touchscreen or stylus
- Quickly communicate your most commonly used phrases and messages with the FastTalk page
- Use the email and whiteboard features to communicate with friends and family

Make it Yours

- Express yourself by creating custom icons and phrases with our Type and Talk feature
- Create and save multiple sentences and phrases for recall when you need them
- Configure the language system to your unique needs with customizable settings
- You can view all of your pictures in our new photo gallery

FREE DEVICE SUPPORT AND TRAINING:

Lingraphica provides unlimited, free technical support, assistance, and training for the MiniTalk to help you, your caregivers, and your speech-language pathologist get the most from the device.

About Lingraphica

Lingraphica provides clinically relevant tools and services to help individuals with language and cognitive disorders connect with family, friends and communities. Working in partnership with clinicians and caregivers, our mission is to meet those individuals wherever they may be in their journey to improve or regain their communication skills.

Backed by nearly 30 years of experience and research we provide communication devices, language and communication apps, and online practice activities.
